

SPELLBINDER

Spellbinder makes the learning process so much easier and fun for kids of all reading and spelling levels. Spellbinder has four panels:

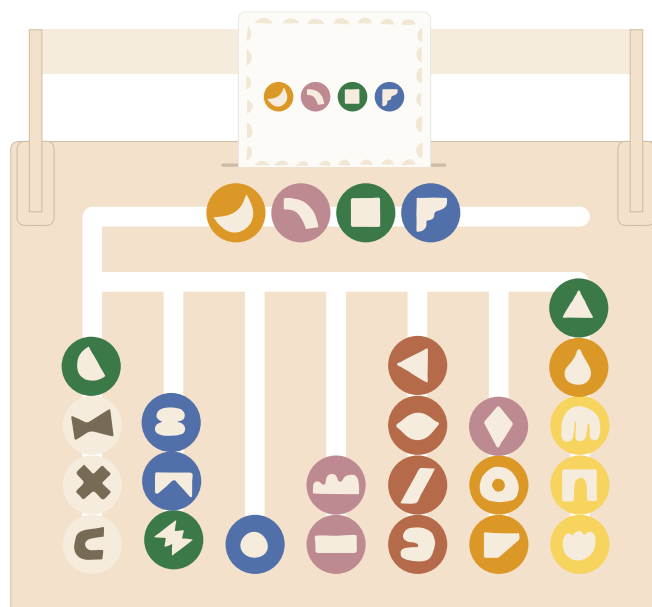

- Spelling Labyrinth with sliding letters
- Shape Labyrinth with sliding shapes
- Chalkboard that also serves as a portable writing & drawing surface
- Storage pockets for cards, chalk, pencils, markers & more

Remove the cards from the storage pockets, shuffle or place face down to mix up the cards, and pick one at random. Read the card:

If the card shows a spelling challenge (an illustration with scrambled letters), place Spellbinder on the floor, table or in the child's lap with the Spelling Labyrinth facing up. Put the card into the slot at the top of the board. The child should locate the letters shown on the card that correspond with the letters on the wood sliders, and then move the sliding letters around until they are arranged in the correct order along the top path.

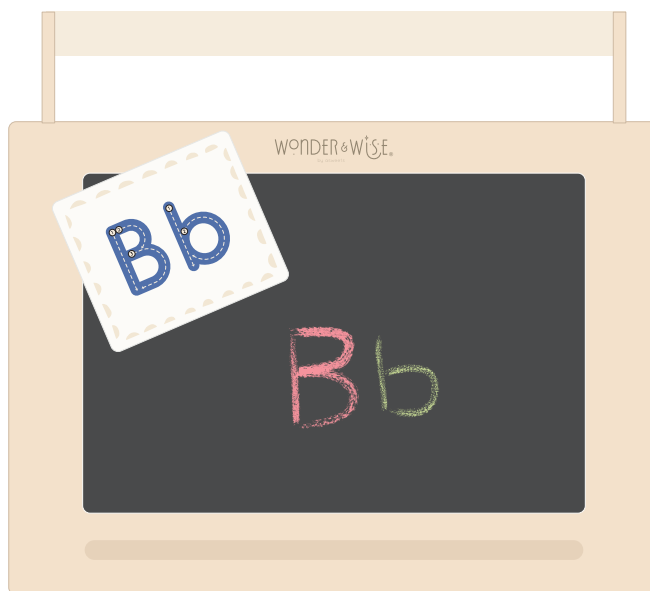

If the card shows a shape sorting challenge (a row of shapes), place Spellbinder with the Shape Labyrinth facing up. Put the card into the slot at the top of the board. The child should locate the shapes shown on the card that correspond with the shapes on the wood sliders, and then move the sliding shapes around until they are arranged in the correct order along the top path.

If the card shows uppercase and lowercase letters of the alphabet, place Spellbinder with the chalkboard facing up. Lay the card flat. The child can follow the numbers showing the order of the strokes needed to draw that particular letter either using chalk on the chalkboard, or on a separate piece of paper with a pencil or pen.

The chalkboard may need “seasoning.” To season the chalkboard, take a piece of chalk and place it lengthwise on the chalkboard. Rub the chalk from top to bottom and side to side on the chalkboard. Then wipe with a dry paper towel.

If a child would rather focus just on spelling or shape sorting or writing, gather all of the cards featuring that respective challenge, and work through the stack one card at a time.

At the end of each session, try to return the letters into alphabetic order so Spellbinder is ready for play next time! Best thing about Spellbinder? It's easy to carry along to play in the car on errands or road trips, at restaurants, doctors' offices – all sorts of places. Spellbinder provides great learning, activity and fun all on the go!
